Do you owe back rent and live in East Camden or Cramer Hill?

The R.E.N.T program is a rental assistance program available to East Camden and Cramer Hill residents that are behind in their rent and have been unsuccessful in receiving rental assistance funds from other programs. This program specifically **targets undocumented tenants or tenants who receive Section 8 or live in public housing**. This program offers direct rental assistance after applicants complete financial capability and rental counseling sessions to ensure that the tenant feels empowered and more knowledgeable about their rights.

This program is available as a first come, first served basis. SJCS reserves the right to refuse or pay a portion of back rent due to funding conditions, individual needs and demand for this program.

The process is easy!

Applicants must:

- Owe back rent. Funds cannot be used to pay for future rent.
- Have a household income of less than 80% of the 2021 Camden County Median Income.
- Live in the neighborhoods of East Camden or Cramer Hill, zip code 08105.
- Attend one intake session, one rental education class and one rental counseling session before getting their rent paid.
- Get approval from their landlords to apply funds to back rent owed.

Getting Rid of Mold

Naturally: 5 Non-Toxic Ways

Mold-hydrogen peroxide

Pour a 3% concentration of hydrogen peroxide into a spray bottle. Test an inconspicuous area of surfaces first to prevent discoloration or damage. Saturate the moldy surface and leave it for 10 minutes. Next, scrub the area with just enough force to remove black mold and mold stains. Once the surface is free of residual mold and stains, wipe dry.

Black mold removal-vinegar

Pour undiluted white vinegar into a spray bottle. Because white vinegar contains only about 20% acetic acid, adding water makes it less effective. Spray the vinegar onto the moldy surface and leave for an hour. Finally, wipe the area clean with water and allow the surface to dry. Any smell from the vinegar should clear within a few hours.

How to treat mold with lemons

Juice three-to-five lemons into a cup and pour over the moldy area. Let it sit for five minutes and then wipe the surface with a damp towel. You can reapply and scrub the surface to get rid of tough mold stains.

Classic Bruschetta

Ingredients:

For the tomatoes

- ◇ 4 tbsp. extra-virgin olive oil
- ◇ 2 cloves garlic, thinly sliced
- ◇ 4 large tomatoes, diced
- ◇ 1/4 c. thinly sliced basil
- ◇ 2 tbsp. balsamic vinegar
- ◇ 1 tsp. kosher salt

FOR THE BREAD

- ◇ 1 large baguette, sliced 1/4" thick on the bias
- ◇ Extra-virgin olive oil, for brushing
- ◇ 2 cloves garlic, halved

Directions:

- ◇ Make marinated tomatoes: In a medium skillet over medium-low heat, heat oil. Add garlic and cook until lightly golden, 2 to 4 minutes, then remove from heat and let cool.
- ◇ In a large bowl, toss together tomatoes, basil, vinegar, salt, and red pepper flakes. Add garlic and oil from skillet and toss to combine. Let marinate for at least 30 minutes.
- ◇ Meanwhile, toast bread: Preheat oven to 400°. Brush bread on both sides lightly with oil and place on large baking sheet. Toast bread until golden, 10 to 15 minutes, turning halfway through. Let bread cool for 5 minutes, then rub tops of bread with halved garlic cloves.
- ◇ Spoon tomatoes on top of bread just before serving.

Here are some tips for having fun in the sun

1. **Cover up** - Wearing hats or other shade-protective clothing can partly shield your skin and harmful effects of UV ray exposure. Proper clothing may include long-sleeved shirts, pants, hats, and sunglasses.
2. **Stay in the shade** - Sun's glare is most intense at midday. Staying close to the shade between 10am and 4pm will further protect your skin.
3. **Choose the right sunscreen** - This is one of the most important aspects of protecting yourself from UV rays. The FDA has new regulations for sunscreen labeling and recommends that your sunscreen have a SPF of at least
4. It should be able to protect you from both UV-A and UV-B rays.
5. **Use the right amount of sunscreen**—Most people apply only 25/50 percent of recommended amount of sunscreen. When out in the sun, it is important to apply at least 1 ounce of sunscreen every 2 hours. Apply it more often if you are sweating or swimming, even if the sunscreen is waterproof.
