Privacy Policy and Practices of Saint Joseph's Carpenter Society

SJCS respects your privacy. We know it is important to keep your non-public personal information confidential. You have our assurance that SJCS will do our best to handle your non-public personal information (defined below) with discretion and care.

SJCS is committed to keeping your information secure. SJCS restricts access to non-public personal information about you to those employees who need to know that information to provide services to you. Non-public personal information is information about you not known publicly that we obtain in connection with providing affordable housing services to you (such as your social security number or credit history). Non-public personal information does not include information available from public sources, such as telephone directories or government records. Once any and all amassed documents with non-public personal information are not needed any longer or are deemed unnecessary, these documents are to be destroyed appropriately.

Information we collect

To assist you in obtaining affordable housing, SJCS collects and uses publicly available information as well as non-public personal information. We collect non-public personal information about you from the following sources:

- Information we receive from you on applications or other forms;
- Information about your transactions with us, our affiliates or others;
- Information we receive during personal interviews;
- Information we receive from personal and employment references;
- Information we receive from personal documents such as a social security card, driver's license, government identification, court order or decree, tax return, W-2, 1099 or pay-stub; and
- Information we receive from a consumer reporting agency.

Information we disclose

We may disclose the following kinds of personal information about you:

- Information we received from you on applications or other forms, such as your name, address, social security number, employer, occupation, assets, debts and income;
- Information about your transactions with us, our affiliates or others, such as your account balance, payment history and parties to your transactions; and
- Information we receive from a consumer reporting agency, such as your credit bureau reports, your credit history and your creditworthiness.

For Your Protection: Get a Home Inspection

Why a Buyer Needs a Home Inspection

A home inspection gives the buyer more detailed information about the overall condition of the home prior to purchase. In a home inspection, a qualified inspector takes an in-depth, unbiased look at your potential new home to:

- Evaluate the physical condition: structure, construction, and mechanical systems;
- Identify items that need to be repaired or replaced; and
- Estimate the remaining useful life of the major systems, equipment, structure, and finishes.

You Must Ask for a Home Inspection

A home inspection will only occur if you arrange for one. FHA does not perform a home inspection.

Decide early. You may be able to make your contract contingent on the results of the inspection.

Appraisals are Different from Home Inspections

An appraisal is different from a home inspection and does not replace a home inspection. Appraisals estimate the value of the property for lenders. An appraisal is required to ensure the property is marketable. Home inspections evaluate the condition of the home for buyers.

FHA Does Not Guarantee the Value or Condition of your Potential New Home

If you find problems with your new home after closing, FHA cannot give or lend you money for repairs, and FHA cannot buy the home back from you. Ask a qualified home inspector to inspect your potential new home and give you the information you need to make a wise decision.

Radon Gas Testing and other safety/health issues

The United States Environmental Protection Agency and the Surgeon General of the United States have recommended that all houses should be tested for radon. For more information on radon testing, call the toll-free National Radon Information Line at 1-800-SOS-Radon or 1-800-767-7236.

Ask your home inspector about additional health and safety tests that may be relevant for your home.

Be an Informed Buyer

It is your responsibility to be an informed buyer. You have the right to carefully examine your potential new home with a qualified home inspector. To find a qualified home inspector ask for references from friends, realtors, local licensing authorities and organizations that qualify and test home inspectors.

HUD-92564-CN (6/14)

Appendix B

Ten Important Questions to Ask Your Home Inspector

1. What does your inspection cover?

The inspector should ensure that their inspection and inspection report will meet all applicable requirements in your state if applicable and will comply with a well-recognized standard of practice and code of ethics. You should be able to request and see a copy of these items ahead of time and ask any questions you may have. If there are any areas you want to make sure are inspected, be sure to identify them upfront.

2. How long have you been practicing in the home inspection profession and how many inspections have you completed?

The inspector should be able to provide his or her history in the profession and perhaps even a few names as referrals. Newer inspectors can be very qualified, and many work with a partner or have access to more experienced inspectors to assist them in the inspection.

3. Are you specifically experienced in residential inspection?

Related experience in construction or engineering is helpful, but is no substitute for training and experience in the unique discipline of home inspection. If the inspection is for a commercial property, then this should be asked about as well.

4. Do you offer to do repairs or improvements based on the inspection?

Some inspector associations and state regulations allow the inspector to perform repair work on problems uncovered in the inspection. Other associations and regulations strictly forbid this as a conflict of interest.

5. How long will the inspection take?

The average on-site inspection time for a single inspector is two to three hours for a typical single-family house; anything significantly less may not be enough time to perform a thorough inspection. Additional inspectors may be brought in for very large properties and buildings.

6. How much will it cost?

Costs vary dramatically, depending on the region, size and age of the house, scope of services and other factors. A typical range might be \$300-\$500, but consider the value of the home inspection in terms of the investment being made. Cost does not necessarily reflect quality. HUD Does not regulate home inspection fees.

7. What type of inspection report do you provide and how long will it take to receive the report?

Ask to see samples and determine whether or not you can understand the inspector's reporting style and if the time parameters fulfill your needs. Most inspectors provide their full report within 24 hours of the inspection.

8. Will I be able to attend the inspection?

This is a valuable educational opportunity, and an inspector's refusal to allow this should raise a red flag. Never pass up this opportunity to see your prospective home through the eyes of an expert.

9. Do you maintain membership in a professional home inspector association?

There are many state and national associations for home inspectors. Request to see their membership ID, and perform whatever due diligence you deem appropriate.

10. Do you participate in continuing education programs to keep your expertise up to date?

One can never know it all, and the inspector's commitment to continuing education is a good measure of his or her professionalism and service to the consumer. This is especially important in cases where the home is much older or includes unique elements requiring additional or updated training.

U.S. Department of Housing and Urban Development

Are You A Victim Of HOUSING DISCRIMINATION?

The American Dream of having a safe and decent place to call 'home' reflects our shared belief that in this nation, opportunity and success are within everyone's reach. Under our Fair Housing laws, every person is assured the opportunity to build a better life in the home or apartment of their choice - regardless of their race, color, religion, sex, national origin, family status or disability.

How Do You Recognize HOUSING DISCRIMINATION?

Under the Fair Housing Act, it is Against the Law to:

- Refuse to rent to you or sell you housing
- Tell you housing is unavailable when in fact it is available
- Show you apartments or homes only in certain neighborhoods
- Set different terms, conditions, or privileges for sale or rental of a dwelling
- Provide different housing services or facilities
- Advertise housing to preferred groups of people only
- Refuse to provide you with information regarding mortgage loans, deny you a mortgage loan, or impose different terms or conditions on a mortgage loan
- Deny you property insurance
- Conduct property appraisals in a discriminatory manner
- Refuse to let you make reasonable modifications to your dwelling or common use areas, at your expense, if it may be necessary for you to fully use the housing. (Where reasonable, a landlord may permit changes only if you agree to restore the property to its original condition when you move.)
- Refuse to make reasonable accommodations in rules, policies, practices or services if it may be necessary for you to use the housing on an equal basis with nondisabled persons
- Fail to design and construct housing in an accessible manner
- Harass, coerce, intimidate, or interfere with anyone exercising or assisting someone else with his/her fair housing rights

It is Unlawful to Discriminate in Housing Based on These Factors...

- Race
- Color
- National origin
- Religion
- Sex
- Familial status (families with children under the age of 18, or who are expecting a child)
- Disability

If You Believe Your Rights Have Been Violated...

- HUD or a State or local fair housing agency is ready to help you file a complaint.
- After your information is received, HUD or a State or local fair housing agency will contact you to discuss the concerns you raise.

Are You Planning to Buy or Rent a Home Built Before 1978?

Did you know that many homes built before 1978 have **lead-based paint**? Lead from paint, chips, and dust can pose serious health hazards.

Read this entire brochure to learn:

- How lead gets into the body
- How lead affects health
- What you can do to protect your family
- Where to go for more information

Before renting or buying a pre-1978 home or apartment, federal law requires:

- Sellers must disclose known information on lead-based paint or lead-based paint hazards before selling a house.
- Real estate sales contracts must include a specific warning statement about lead-based paint. Buyers have up to 10 days to check for lead.
- Landlords must disclose known information on lead-based paint and lead-based paint hazards before leases take effect. Leases must include a specific warning statement about lead-based paint.

If undertaking renovations, repairs, or painting (RRP) projects in your pre-1978 home or apartment:

- Read EPA's pamphlet, *The Lead-Safe Certified Guide to Renovate Right*, to learn about the lead-safe work practices that contractors are required to follow when working in your home (see page 12).

Simple Steps to Protect Your Family from Lead Hazards

If you think your home has lead-based paint:

- Don't try to remove lead-based paint yourself.
- Always keep painted surfaces in good condition to minimize deterioration.
- Get your home checked for lead hazards. Find a certified inspector or risk assessor at epa.gov/lead.
- Talk to your landlord about fixing surfaces with peeling or chipping paint.
- Regularly clean floors, window sills, and other surfaces.
- Take precautions to avoid exposure to lead dust when remodeling.
- When renovating, repairing, or painting, hire only EPA- or state-approved Lead-Safe certified renovation firms.
- Before buying, renting, or renovating your home, have it checked for lead-based paint.
- Consult your health care provider about testing your children for lead. Your pediatrician can check for lead with a simple blood test.
- Wash children's hands, bottles, pacifiers, and toys often.
- Make sure children eat healthy, low-fat foods high in iron, calcium, and vitamin C.
- Remove shoes or wipe soil off shoes before entering your house.

For More Information

The National Lead Information Center

Learn how to protect children from lead poisoning and get other information about lead hazards on the Web at epa.gov/safewater and hud.gov/lead, or call **1-800-424-LEAD (5323)**.

EPA's Safe Drinking Water Hotline

For information about lead in drinking water, call **1-800-426-4791**, or visit epa.gov/lead for information about lead in drinking water.

Consumer Product Safety Commission (CPSC) Hotline

For information on lead in toys and other consumer products, or to report an unsafe consumer product or a product-related injury, call **1-800-638-2772**, or visit CPSC's website at cpsc.gov or saferproducts.gov.

State and Local Health and Environmental Agencies

Some states, tribes, and cities have their own rules related to lead-based paint. Check with your local agency to see which laws apply to you. Most agencies can also provide information on finding a lead abatement firm in your area, and on possible sources of financial aid for reducing lead hazards. Receive up-to-date address and phone information for your state or local contacts on the Web at epa.gov/safewater, or contact the National Lead Information Center at **1-800-424-LEAD**.

Hearing- or speech-challenged individuals may access any of the phone numbers in this brochure through TTY by calling the toll-free Federal Relay Service at **1-800-877-8339**.
